

HILLCRESTON PARK

Superfine Merino Stud

**Superfine Merino &
Poll Merino Sale**

**16 | 10
2025**

Welcome

Friends, I would like to welcome you to Hillcreston Parks 34th Ram Sale.

Sheep on the Tablelands of NSW have had a few tough years with continual rains, a blessing in one hand for a farmer, but sheep prefer the drier warmer conditions. In saying that the rams are in very good order for your inspection.

These seasons have really showed how our sheep can handle wet conditions, the wool is lovely bright and white with very good crimp definition. We have entered more 14 month old rams for your viewing which gives you another year of joining out of your selected rams.

The Rams this year are a great range of Ultrafine and Superfine Rams for your viewing. The last 12 months have really helped the sheep grow and do well, so the microns are at their highest level.

We have not mulesed for seven years now with very little change to animal husbandry practices.

Rams are a little plainer than 10 years ago but are larger in frame and are cutting far more wool, we have increased our grown sheep wool cut by around 1 Kilo a head over the last 15 years while keeping the special superfine wool on the sheep. We have done this for profitability and to satisfy the European wool market. Animal husbandry and sustainability in our industry is very important for our future.

Wool buyers are finding it very difficult to find enough 74's better type wools to buy in the

market. Let's hope the future is ours. Remember we as Australians still grow the majority of the best wools in the world. It can't be supplied by anyone else except a small supply from NZ.

If you can't attend and would wish to look at a particular ram, we can take photos of the actual sheep and its wool and can email the photos to you. The future of the superfine wool industry is in our hands, lets keep growing this wonderful product.

We will have phone and internet coverage available. Take care and keep healthy with luck it would be great to see you here.

Danny, Meg and family

HILLCRESTON PARK SUPERFINE HORN & POLL MERINO STUD

A/C Danny and Megan Picker
Flock No. 4584 Poll Flock No. RM 1161

34th Annual Ram Sale

16 October 2025
Inspection from 10am
Auction commences 2:00pm

8 1/2 months wool on rams on offer

Recent Achievements

- **Hillcreston Park produced Mainland record for paddock grown wool of 110,000c per kilo**
- **Continually producing 1PP bales of Ultrafine Wool as fine as 11.1 Micron**
 - **Some of our 1PPs**
2006 9 1PP Bales | 2007 8 1PP Bales
2022 7 1PP Bales | 2023 6 1PP Bales
- **Zegna Wool Trophy top 10 every year except one since competition began. Highest place 2nd.**
- **Zegna Vellas Aurium Fleece Competition, top 5 since competition started. Highest place 2nd.**

Hillcreston Park Merino and Poll Merino Studs

Over the last 19 years we have been using selective breeding to give our sheep more frame and bone structure while still keeping our prized 1PP type wool that is soft and bright with a stylish crimp and long staple length.

We are selecting for a modern sheep, producing a bigger carcase and more wool whilst maintaining style, handle and brightness, a move that has been demanded by industry, markets and our clients.

In 2002, we undertook an AI program using a 15.6 micron Merryville Ram who sold for \$42,000. This successful outcross started the Stirling family that has consistently performed well and has proven to be a sale day favourite.

In 2010, Alfoxton President was used in our AI program, this outcross has worked brilliantly with sale rams testing as fine as 16 micron and weighing over 100KG.

In 2013, we purchased a \$5,000 son of Alfoxton Diplomat, who sold for \$46,000 from Conrayn Merino Stud.

In 2021, we purchased semen from David and Susan Rowbottom or Rowensville Victoria. The semen was 12.7 and 12.8 microns. These crosses are now giving us some finer microns.

Classing and Delivery

As part of our dedication to our clients, Hillcreston Park offers a free classing and ram selection service and a delivery service within 200km.

Feel free to contact us anytime.

Our History

Hillcreston Park situated in the valley of Bigga is one of few superfine horn & poll merino studs in Australia consistently producing wool clips averaging under 17.0 micron.

Hillcreston Park was established in 1992 with a 25% draft of Hillcreston Merino stud.

Hillcreston Merino Stud was founded in 1910 when the Picker brothers purchased Collaroy blood ewes from G.D. Hay, 'Goonoongla' Bigga, NSW. In 1925 Sam Picker acquired a portion of the flock from his father and from that year until 1954 only 'Merryville', rams were introduced.

Rams introduced since 1954 have been from 'Valleyfield' and 'Winton' with a uniform stud ram from Merryville being purchased in 1980. In 2002 Semen was purchased of a 15.6 micron Merryville ram which is our Stirling Sire line, Rams are now fourth generation. & in 2010 Semen used of Alfoxtton President a 14 Micron Ram.

In 1963 Trevor Picker was taken into the partnership. Following the death of its Sam Picker in 1972 the stud was carried on by Trevor Picker and family.

Hillcreston Park has continued producing the same high standards that have been set in the history of Hillcreston. Our aim is to produce larger framed sheep with a long white staple, while still holding our traditional 1PP type wool. We believe with the current meat market trends a larger frame sheep is required while still holding our traditional type wool.

In July 1992 Hillcreston Park Poll Stud was registered, Flock No RM. 1161, after the purchase of Super Bute, a \$10,000 buy at Melbourne Sheep Show and Sale in 1989 from Mt Bute Poll Stud of Linton, Victoria. In December 1989, 20 stud ewes were purchased from Mt Bute and 30 stud ewes from Hillcreston to raise the stud ewes to 50. In 2009 a 15 Micron Stud Poll ram was purchased from Greenlands Stud & is breeding very well.

We have been breeding Ultrafine Poll Rams for over 30 years.
